Submission Guidelines and Notes for authors:

Submissions are invited. All manuscripts should be typed and double-spaced in Times New Romans 12. The author's name should appear only on the title page and cover letter. Length of per article is about 3000-5000 words, with maximum 200 words abstracts. Please send your figures and tables in separate files and if possible, please obtain permission for such art work before submitting your manuscript. This journal is both multi-disciplinary and interdisciplinary journal on NTT Development Studies. It is available both in Bahasa and in English.

The Interdisciplinary Journal of NTT Development Studies serves as a forum for dialogue and knowledge sharing between scientists and practitioners. Whilst we anticipate that many submissions will come from both international and Indonesian national writers, an important aim of the journal is to provide a space for developing and housing the work of Nusa Tenggara Timur based practitioners and writers who thus far have lacked significant representation in the studies of East Nusa Tenggara developmental field. As such, it is intended that the peer review process will contribute to the goal of developing the research and writing skills of those who submit articles to the journal.

We publish twice a year.
